

Construction Services

On-site construction expertise delivers high quality on time construction projects

In a typical year, Construction Services manages more than 1,200 contractors and consultants and delivers over \$400 million in construction projects.

Delivering high quality, on time construction projects

Construction Services' work is focused on the effective management of construction projects to ensure quality and timely delivery to our client. The service line's key contract management functions include:

- quality assurance,
- document and schedule control,
- change management,
- progress payment,
- warranty management,
- dispute mitigation and resolution,
- construction safety, and
- construction security.

Specialized technical expertise

DCC has on-site specialized technical expertise across Canada in the following practice areas:

- commissioning,
- construction contract management,
- professional services contract management,
- construction safety,
- goods and service contract management,
- energy performance contract management, and
- insurance and bonding.

Client-focused expertise

While much about the delivery and practice of construction has changed in the past half century, DCC's Construction Services' professionals remain committed to delivering the key infrastructure projects that support Canada's military. At each site in Canada, DCC has senior managers in place to ensure that the client's requirements are delivered in a timely and efficient manner.

Our teams of engineers, technologists, technicians, environmental scientists and contract administration professionals thoroughly understand and appreciate the Department of National Defence's (DND's) requirements. We pride ourselves on delivering cost-effective solutions for DND's new construction and renovation projects.

From new construction to renovations, we're always ready

From innovative projects to traditional ones, from control towers to dockyards, from hangars to tank-maintenance facilities, from community centres to accommodation facilities, and from roads to sewer and water systems, DCC provides on-site customized service. Construction Services has the skills and expertise to deliver innovative solutions for our client.

DCC's services cover all the bases

Defence Construction Canada is a Crown corporation whose mandate is to provide innovative and cost-effective contracting, construction management and infrastructure-related services for the Department of National Defence, the Canadian Forces and the defence of Canada.

DCC employs more than 800 professionals—among them engineers, engineering technicians and technologists, environmental engineers and technologists, experienced trades people and other professionals—and maintains offices at all of the Canadian Forces' bases, wings and area-support units including deployed operations.

DCC also has expertise in the following service lines:

- Contract Services
- Environmental Services
- Project & Program Management Services
- Real Property Management Services
