

Support to Military Operations

At home or abroad, DCC's services are never far away

Since 2002, DCC has provided contract management, contract administration and project support services to DND in Kandahar, Afghanistan. Thanks in part to DCC's work, the CF has helped rebuild Afghanistan's infrastructure and improved facilities for citizens and Canadian civilian and military personnel.

Supporting our troops, everywhere

DCC works with the Department of National Defence (DND) and the Canadian Forces (CF) not only across Canada, but also around the world. Our team is always standing by, ready to provide short- and long-term contract management, contract administration and project support services.

Expertise at the ready

DCC's team of engineers, technicians, technologists and environmental scientists offers a range of field expertise on short notice. Our professionals are intimately familiar with foreign contracting practices and excel at working with local contractors, methods and materials to deliver and maintain CF infrastructure abroad.

Our skills are in demand, our services always available

DCC boasts more than 50 years' experience delivering services to DND's infrastructure program. The Corporation is well positioned to support CF operations in Canada and around the world. DCC offers four principal in-theatre services.

- **Procurement expertise:** DCC uses its unmatched understanding of DND requirements and thorough knowledge of Canadian government contracting policies to ensure the CF receives the goods and services it needs to meet precise operational requirements.
- **Construction services:** DCC deploys personnel with specialized construction, maintenance and logistical backgrounds to administer in-theatre contracting operations.
- **Project management support:** DCC's program management specialists provide on-site services to DND project leaders throughout all phases of project delivery.
- **Environmental services:** DCC's environmental team works on site with engineering, environmental and logistics staff to design and implement cost-effective solutions such as waste management plans, environmental impact assessments and contaminated site remediation strategies.

DCC's services cover all the bases

Defence Construction Canada is a Crown corporation whose mandate is to provide innovative and cost-effective contracting, construction management and infrastructure-related services for the Department of National Defence, the Canadian Forces and the defence of Canada.

DCC employs more than 800 professionals—among them engineers, engineering technicians and technologists, environmental engineers and technologists, experienced tradespeople and other professionals—and maintains offices at all of the Canadian Forces' bases, wings and area-support units.

DCC has expertise in the following service lines:

- Construction Services
- Contract Services
- Environmental Services
- Project & Program Management Services
- Real Property Management Services
